CNC PROGRAMMING & OPERATION -MACHINE TOOLS:

State Registered Certificate
272 Clock Hrs. 17 weeks

This course will enable the student to learn how to program set up and operate computer numerical control (CNC) mills and lathes combined with using quality control instruments, shop mathematics, and blueprint reading. Graduates will qualify for a number of entry level positions, including but limited to machinist trainee, machinist apprentice and CNC operator.

Our location is inside the plant of Lehner Screw Machine. Schedule a tour to see our equipment and live manufacturing processes!
